

Connect with us during National Nurses Month

For more than 125 years, Johnson & Johnson has been proud to advocate for, elevate and empower the nursing profession, because for healthcare to work, it takes nurses.

To help catalyze nurse-led innovation in your health system, tap into the resources below or visit [our website](#) to find innovation and leadership opportunities.

Get actionable tips for care delivery transformation

A new toolkit from the Institute of Healthcare Improvement and supported by Johnson & Johnson Foundation provides actionable steps for nurse leaders to scale innovative care models that improve both patient outcomes and nurse satisfaction. [Download the IHI toolkit](#) or [explore six steps](#) for engaging frontline staff and building cross-disciplinary teams to foster sustainable and impactful change.

Learn more about the upcoming NurseHack4Health™ Pitch-A-Thon

NurseHack4Health™ is a community for nurses and other innovators focused on collaborating to address today's most pressing healthcare challenges. Receive two contact hours by participating in the [NurseHack4Health™ Innovation Academy](#), a three-part asynchronous innovation course for nurses, and join an information session for the upcoming NurseHack4Health™ Pitch-A-Thon on Tuesday, May 20 at 12:00 ET to learn how you could receive grant funding to bring your nurse-led innovation to life. [Click here to register for the info session.](#)

Nurse Innovation Fellowship Program

by Johnson & Johnson

Senior nurse leader innovation fellowship

Johnson & Johnson is proud to support the [Nurse Innovation Fellowship](#), powered by Penn Nursing and the Wharton School. This one-year, team-based fellowship is designed for CNOs and senior nurse leaders and is focused on catalyzing nurse-led innovation and leadership to drive transformative health system change. Learn more about the current and upcoming cohorts [here](#).

Nursing Workforce Solutions

by Johnson & Johnson | AACN CSI Academy

Direct care nurse leadership and innovation training

Created in collaboration with AACN CSI Academy, this 18-month hospital based, experiential nurse leadership and innovation training program designed to empower direct care nurses as clinician leaders and change agents. Through in-person and virtual workshops, each team works on an innovation project that directly addresses an issue in their work environment. Learn more [here](#).
